

## **EMPLOYEE MORALE - A NEW AND HANDY RESOURCE**

### **Taking the PAR out of PARTY**

When you take the PAR out of **PARTY** you're left with TY, which stands for the big **THANK YOU** you'll receive from your employees for not making them participate in another typical office party. Aren't these things supposed to be fun?

Nicole David found her niche at the Baton Rouge Area Chamber (BRAC) planning the popular Canvas Workshop series and now she's found her niche on the web. This month she launched **ProjectOfficeParty.com**, an online resource for office parties and the people who plan them. Organizations are always looking for inexpensive, but impactful ways to show appreciation for their employees. Project Office Party puts a fresh face on traditional office events designed to **reward employees and boost morale.**

No, you can't hire Nicole to plan your office celebrations, BRAC has cornered the market on that, but her new website will encourage, educate, and empower office party planners, by offering unique event concepts and step-by-step instructions on how to plan and execute the ideas presented. This fun and informative professional development tool will assist planners in working more efficiently and effectively, by sharing tricks of the trade used by professional event planners. In addition to its workplace applications, Project Office Party is also a terrific resource for anyone who likes to entertain, since the concepts easily transition to celebrations outside of the office with family and friends.

As a preview, Nicole is offering **free access** to ProjectOfficeParty.com in December 2008 and January 2009. If you visit the site and like what you see, sign up to be a member of POP TOPS (Project Office Party's Team Of Party Specialists).

As a member of POP TOPS, you'll have access to upcoming party concepts and planning details, one each month, for a whole year. POP TOPS annual membership is \$50.
